

*Dear Valued Customer,*

*This is an update on Okonite's operations during the Coronavirus emergency. Okonite continues to manufacture and ship cable at our normal rates with no slowdown in activity. As an essential manufacturer under the CISA regulations of the Department of Homeland Security, Okonite does not anticipate any regulatory impediment to the continuation of our supplying the electric cables for the infrastructure required by the country's electrical grid and by the manufacturing sector. As part of our continuing operations, we have implemented all governmental and other recommendations for the protection of our employees against the virus.*

*The Okonite Company, Inc.*
